Environmental Resource Monitors (Seasonal)

Req: 25-08

RECON Environmental, Inc. is one of the most established environmental consulting service firms in the Southwest. We are an employee-owned, small company of hard-working specialists with a casual and collaborative work environment. Our firm will offer the right candidate a team oriented and caring environment. We are client-focused, flexible, and always striving to provide high-quality service for our clients.

We are currently looking to hire seasonal Environmental Resource Monitors to provide long-term construction monitoring for cultural and biological resources along the U.S./Mexico border. Environmental Resource Monitors are needed for immediate work in San Diego, California, El Paso, Texas, and Yuma, Arizona, with additional work expected along the border region.

The Environmental Resource Monitor will primarily conduct on-foot field surveys and complete appropriate field survey notes, along with other field duties, as required. The right candidate for this position must be able to work independently while performing construction monitoring.

The position requires a bachelor's degree in archaeology or biology with fieldwork experience. Construction monitoring is a plus. Qualified candidates must be available for travel, have a clean driving record, and be able to work up to 10+ hours per day.

Salary: \$23.00 per hour (plus overtime and double-time).

RECON is an EOE/Minority/Female/Disability/Veterans

Qualified candidates should submit their resume with salary requirements to ads@reconenvironmental.com.
