

Cal-IPC Southern California Mini-Symposium ***Cal Poly Pomona, June 13, 2022***

Invasive Plant Management from Cities to Wildlands

Photo: Arlee Montalvo

Register Now! Connect with colleagues in person!

Join us for the latest in invasive plant biology and management, featuring:

- Presentations on protecting and enhancing habitats in Southern California by Justin Valliere (CSU Dominguez Hills) and Elizabeth Scordato (Cal Poly Pomona)
- Concurrent workshops:
 - Post-Fire EDRR with Lauren Quon (Cleveland NF), Robert Fitch (UCSB), and Hailey Laskey (CNLM)
 - Weed Identification and Restoration at the Wildland Urban Interface with Erin Questad, Meghan Jeffus, Noah Szczesinski, and Jill Gomez (Cal Poly Pomona)
 - Tool Tailgate with Chris McDonald (UCCE), Aaron Echols (Inland Empire RCD), and Henry DiRocco
- Case studies by land managers and specialists on (1) Post-fire early detection surveys in the Santa Ana mountains, (2) fire as a weed management tool, (3) Goats and habitat restoration, (4) Grass-specific herbicides, (5) Stinkwort management at its leading edge, and (6) New regional weeds.
- Posters about regional invasive plant management and restoration
- DPR CEU credits – (pending)
- Coffee and Lunch provided

Poster abstracts accepted until May 31.

Registration: \$50 Members/\$75 Non-members (+ \$25 for DPR CEUs). Special rates available for presenters, students, and persons with financial need.

Rates increase June 3.

Register at cal-ipc.org/symposium.
